.....ARTICOLI PUBBLICATI

	Pag.		
• <i>Editoriale</i> : Lettera aperta ai ricercatori italiani	3	• Isolation, chemical composition, antioxidant and antimicrobial potential of essential oil from <i>Mentha Arvensis</i> L. organically planted from Macedonia	151
• Animal fats for non-food uses. A review of technology and critical points	5	• Extraction and utilisation of rice bran oil. A review	161
• Effect of pigments and total phenols on oxidative stability of monovarietal virgin olive oil produced in Morocco	17	• Purification of used sunflower frying oil with adsorbent mixtures using an active filtration method	171
• Structure and properties of selected metal organic frameworks as adsorbent materials for edible oil purification	25	• Composition of essential oil and fatty acids and antioxidant assays of <i>Psephellus pyrrhoblepharus</i> (Boiss.) Wagenitz	183
• Nota tecnica. Lubrificanti - Corrispondenza tra metodi analitici (gennaio - dicembre 2018)	39	• Effect of natural style processing on the lipid fraction of Sigoise turning colour table olives	191
• Qualità ed Autenticità Tecnologie e Sottoprodotti 18-19 Ottobre 2018, Bari	51	• Libri	203
• Congressi	71	• Congressi	205
• <i>Editoriale</i> : Abolito l'obbligo alla decolorazione per gli oli di semi	75	• Indice Anno 2018	211
• Oli di semi di spremitura: un nuovo prodotto nel panorama oleario	79	• Determination of the palm oil addition in food	215
• Determination of deficit irrigation treatments on olive fruit quality and olive oil (Memecik cv.) chemical composition and antioxidant properties	85	• Short Note - Innovative technologies in EVO oil extraction: an economic and environmental impact analysis	223
• A comprehensive review of the potentials of rice bran oil processing in Nigeria	109	• Short note - Phenolic composition of extra virgin olive oil samples from Istria (Croatia)	231
• Chemometric analysis of chemo-optical data for the assessment of olive oil blended with hazelnut oil	123	• Oxidative stabilisation of sunflower oil enriched with olive mill wastewater and olive pomace phenolics-rich extracts with soy lecithin	241
• Congressi	131	• Effects of blanching on antioxidant property of Malabar Spinach (<i>Basella rubra</i>) ethanolic extract	251
• Novità in OCL	139	• Exploring the <i>Camelina sativa</i> value chain: a new opportunity for bio-based products and overall crop sustainability	259
• Cv. Bambina, una varietà minore pugliese: profilo di maturazione, composizione delle drupe e caratterizzazione chimica dell'olio vergine	143	• Fatty hydroxamic acid mixture from underutilized <i>Adansonia digitata</i> seed oil: a potential means for scavenging free radicals and combating drug resistant microorganisms	269
		• Congressi	285
		• Novità OCL	289
