## Stazioni Sperimentali per l'Industria

### Innovation for competitiveness

We are a national centre for applied research, analytical testing, innovation and technology transfer.

In our scientific laboratories we employ several experts to support paper, textile, fuels, oils, varnishes, detergents and cosmetics sectors, with the aim to promote research, innovation and industrial development, with particular attention to sustainability. We are involved in research projects in various areas, such as sustainability, food and energy. Besides, we offer testing and consultancy services for companies and public administrations, and are also active in technical standardization and in promotion of technical and scientific culture.

We are partner of the Enterprise Europe Network, a European Commission initiative active since 2008 to support innovation, technology transfer and internationalization of companies and research centres. The Network counts 700 partners, operating in more than 60 countries all over the world. Thanks to the participation in this project, we provide, free of charge, technical assistance services and commercial, technical partner search.
