

# **Annunci di Ricerca Partner per Progetti di Ricerca Enterprise Europe Network (EEN)**

**Anno 2022**  
(aggiornato al 6 ottobre 2022)

# Enterprise Europe Network (EEN)

È la rete nata nel 2008 per volontà della Commissione Europea con l'obiettivo di supportare l'innovazione, il trasferimento tecnologico e l'internazionalizzazione di piccole e medie imprese ed enti di ricerca. Si avvale di oltre 600 organizzazioni presenti in 60 paesi e offre un sistema integrato di servizi gratuiti per aiutare le imprese a individuare nuovi partner commerciali, produttivi e tecnologici all'estero; per promuovere la partecipazione ai programmi Europei per la ricerca, come Horizon Europe, e per fornire gli strumenti utili per essere più competitivi sui mercati internazionali, migliorando la conoscenza dei mercati e della legislazione europea. In Lombardia i servizi di Enterprise Europe Network sono garantiti dal consorzio **Simpler** (Support Services to IMProve innovation and competitiveness of businesses in Lombardia and Emilia-Romagna), di cui Innovhub è partner.

Susy Longoni  
[susy.longoni@mi.camcom.it](mailto:susy.longoni@mi.camcom.it)

## Come ti può aiutare la rete EEN?

### Far crescere l'azienda e sostenere l'internazionalizzazione:

- Informazioni sulla legislazione EU
- Informazioni e assistenza sul Regolamento REACH
- Ricerca di finanziamenti a supporto delle imprese
- Supporto per l'individuazione di opportunità commerciali all'estero
- Sostegno per lo sviluppo di nuovi prodotti o processi

### Sviluppare partnerati:

- Supporto alla partecipazione a brokerage event e company mission e per la conclusione di accordi di trasferimento tecnologico
- Assistenza nella ricerca partner

### Implementare processi di innovazione e trasferimento tecnologico:

- Servizio di analisi delle capacità di gestione e miglioramento dell'innovazione
- Supporto al trasferimento tecnologico/open innovation
- Informazione su bandi di finanziamento e supporto alla partecipazione a programmi di ricerca
- Pre-screening delle proposte progettuali EIC Accelerator

**Progetto TRKR20211123001**

**A Korean SME seeks partner companies with expertise of vertical farming systems and AI technologies under technical cooperation, license, and joint venture agreements**

A Korean SME specializing in manufacturing agricultural machinery is looking for overseas partners with knowledge of vertical farming systems using 'aeroponics' and 'hydroponics' (water farming) for applying to agricultural machines. The company is open to cooperation under technical cooperation, license, and joint venture agreements.

Dead-line for EOIs: 07/12/2022

**Progetto TRKR20211201001**

**A Korean SME is looking for partner companies with expertise in surge protective devices (SPD) and non-combustible panels**

A Korean manufacturer of surge protective devices (SPD) and non-combustible panels for multiple usages is looking for partners with expertise in SPDs and panels for enhancing the performance of their products. They are open to technical cooperation, license, and also joint venture agreements.

Dead-line for EOIs: 18/12/2022

**Progetto TRKR20210824001**

**A South Korean company is looking for partners with crude protein extraction technology under licensing agreements**

A Korean Company is currently looking for partners companies possessing technologies to extract crude protein from 'hydrolysates of pigs' membrane for high filtration rates to meet local standards of sewage treatment. The firm is seeking for partner companies that can cooperate under license agreements.

Dead-line for EOIs: 23/12/2022

**Progetto RDDE20211201001**

**HORIZON-CL4-2022-TWIN TRANSITION-01-07: Digital tools to support the engineering of a Circular Economy: European consortium is looking for a European recycling company, who is dismantling and recycling end-of-life vehicles**

A European consortium led by a German based engineering company specialized in Computer Aided Engineering is applying for the call TWIN-TRANSITION-01-07: Digital tools to support the engineering of a Circular Economy, with the aim to develop a digital twin for the recycling industry. The consortium is looking for a partner from the European vehicle recycling industry to join the project to integrate the prototype of the auto-

nous system in a side line of the real industrial recycling process.

Dead-line for EOIs: 31/12/2022

**Progetto DAMRC**

**The Danish tech organization DAMRC is looking for technological research institutions to start common research projects on all fields related to advanced manufacturing**

The Danish technological organization DAMRC is a research and development center for advanced production technologies that develops and transforms the latest knowledge into practical solutions in close collaboration with the universities.

The current focus for DAMRC is in the metalworking and composite industry. DAMRC has more than 80 members gathered in a group consisting of advanced companies and organizations. DAMRC continuously screens new technologies and evaluates whether these technologies can benefit production companies.

DAMRC already cooperates with a number of universities and institutions all over the world (e.g. Fraunhofer), but they are now interested in acquiring more partners among technological research organizations and universities.

Dead-line for EOIs 31/12/2022

**Progetto BRDE20220504012**

**A German SME producing high quality cold pressed grape seed oil in organic and conventional quality is searching for cooperation partners in Europe**

This German SME has been active in the production of dried grape seed oils since 2010 - in the conventional and organic sector. From the press cake, the SME produces grape seed flour, which is used for bread mixes, pasta and dietary supplements. The "zero waste" principle therefore applies to the SME's production and company philosophy. The company is now looking for business partners in selected European countries that need at least 30,000 kg of dried organic grape seeds for the production of organic grape seed oil. The requested quantity is the annual requirement. The goods should be available in "loose form" (ideally in 1000 kg big bags).

Dead-line for EOIs: 05/05/2023

**Progetto BRPL20220516008**

**Polish producer of natural cosmetics and candles is looking for suppliers of raw materials**

A Polish family-owned company, with 5 years of experience in the organic sector and hand-made cosmetics, specializes in the production of cosmetics and candles based on natural ingredients

only, without fixatives, preservatives, or parabens. The production is based on traditional methods. Cosmetics are made from vegetable oils, some of which are produced by the manufacturer itself. The company is now looking for cooperation in the field of supply of raw materials for the production of candles such as rapeseed wax, essential oils and fragrance compositions under supplier agreement.

Dead-line for EOIs: 16/05/2023

#### **Progetto BRBG20220801015**

##### **Bulgarian producer of organic cold-pressed oils is looking for distributors or producers of various organic seeds and nuts**

Bulgarian family-owned company produces healthy organic high quality oils from seeds and nuts by the method of coldpressing, which allows to maintain all the beneficial properties of the substances they have been extracted from. The company can also produce customized oils with customers' raw materials from organically certified seeds and nuts. The Bulgarian company is looking for distributors or producers of organic seeds and nuts which they cannot source locally. The products must be suitable for the method of coldpressing, used in the manufacturing activity of the company, and have the relevant bio certification. Potential partners must be willing to supply small quantities at the beginning.

Dead-line for EOIs: 01/08/2023

#### **Progetto TRNL20220815007**

##### **Sustainable cleaning technologies sought preventing disposal of cleaning cloths by Dutch-Belgian wholesaler**

A Dutch-Belgian wholesaler supplying cleaning utilities to cleaning organizations in several European countries wants to make its cleaning solutions more circular. Therefore it is looking for technologies or solutions that prevent cleaning cloths to be disposed and incinerated. A pilot project showing the potential of the technology within the framework of a commercial agreement is aimed for. This technology request refers to an innovation challenge published on an open innovation platform.

Dead-line for EOIs: 18/08/2023
